

The acre intrusion OnGuard plugin integrates with the OnGuard software to achieve an in-depth integration of the two systems. The acre intrusion OnGuard plugin allows users to trigger events such as alarms or status changes and to control acre intrusion systems within the OnGuard system.

When installed, the plugin allows a 30-day trial for up to two panels and will allow the display of areas, zones, doors and outputs from the acre intrusion system. The plugin uses an IP-based, bi-directional and 256 bit AES with CBC encrypted FlexC® to communicate with the acre intrusion control panel.

Acre is offering license package with a 5 acre intrusion panel license. The license also provides customers with one year of support and updates.

Test version

Download a free trial version of acre intrusion OnGuard Plugin (1 panel - 30-day free trial). Please note that this trial period applies for the acre intrusion Plugin only, a license for the Lenel Software needs to be purchased separately

Key features

- Supports up to 5 acre intrusion controllers
- Plug and play installation
- Alarm Management
- 256 bit AES with CBC encrypted communication

Features & Benefits

- **Alarm Management**

The operator will have the ability to control areas set and unsetting the system from within the OnGuard front end. The operator will also be able to control zones, outputs and doors on the acre intrusion system. The system can be configured so that the graphical interface can be used to control all of these elements.

- **Events Triggering (bi-directional)**

The plugin will allow you to trigger events on the OnGuard system based on events from the acre intrusion system. You will also be able to trigger actions on the acre intrusion based on events the OnGuard system. Should the OnGuard system detect a fault it can now trigger the acre intrusion to perform an action.

- **Secure IP Communications**

Using the acre intrusion FlexC® communications protocol the installer uses a common setup to configure the communications and has the peace of mind that communications are secure and reliable.

Technical data

OnGuard listing	Lenel OAAP partners
Acre intrusion versions supported	Acre intrusion 3.8.5 and later (latest tests performed with 3.13.5)
OnGuard versions supported	7.5, 7.6, 8.0

Ordering Data

Art. No.	Description
V54549-P123-A100	Acre intrusion OnGuard plugin up to 5 panels incl. 1 year support and updates
V54549-P125-A100	Add-on - additional 1 year support and updates (5 Acre intrusion panels)
